PROFILE

I am a skilled full stack web developer proficient in the MERN (MongoDB, Express.js, React.js, Next.js, Node.js) technology stack. With a diverse background in both front-end and back-end development, I apply my innovative mindset to create impactful and user-friendly web applications.

EMPLOYMENT

Full Stack Web Developer   May 2023 - Present
Gamma Universe / Gamma Cities, Istanbul

- At Gamma Cities, I specialize in building robust backends. Using technologies like Node.js and Express.js, I create seamless API systems that integrate data management, business logic, and security. I excel in MongoDB for efficient database handling. I track the latest trends in blockchain and metaverse tech to implement innovations in our projects. A collaborative team player, I ensure smooth transitions between design and development phases. This role offers tech diversity and deepens my expertise in web, metaverse, and blockchain domains
- I'm **Full Stack Web Developer** at the metaverse and Blockchain teknology company **Gamma Cities,** as design and develop user-friendly web applications, handling both front-end interfaces using **HTML**, **CSS**, **JavaScript**, **React, Next.js** and **API** systems using **Node.js**, **Express.js, Mongodb**
- I collaborate within the team to ensure seamless coordination between design and development stages.
- Stay update with the latest technological innovations related to the **Blockchain** and **Universing**, to developing date the Gamma universe and Gamma blockchain projects of Gamma Cities.
- This role has allowed me to work across a wide spectrum of technologies and deepen my expertise in web development and metaverse and blockchain domains.

Front End Developer   Jul 2023 - Present

Gamma Universe / Gamma studio, İstanbul

- I worked as a **Front End Developer** at **Gamma Studio**, contributing to both front-end and a bit of backend development.
- My responsibilities included creating responsive and visually appealing user interfaces using modern web technologies like **React, Next.js**, **Bootstrap**.
- I collaborated with the team to ensure the seamless integration of design and functionality.
- I also had the opportunity to delve into backend development tasks, gaining a more comprehensive understanding of the full development stack.
- My time at **Gamma Studio** allowed me to enhance my skills in front-end development while expanding my knowledge of backend technologies.

MERN Stack Web Developer   Jul 2021 - Feb 2023

Bestimage group, Istanbul

- In 2020, I served as a **MERN Stack Web Developer** at **Bestimage** Design and Advertising Group, concluding my role at the beginning of this year.
- Throughout my tenure, I developed dynamic web applications using the **MERN** (**MongoDB**, **Express**, **React**, **Next.js, Node.js**) technology stack. Collaborating closely with the team, I delivered high-quality and visually appealing web solutions.
- My role encompassed both front-end and back-end development, ensuring a seamless user experience.
- This experience further enriched my web development skills and enabled me to make effective contributions to the success of projects.
